ArUco DICT_4X4_50 id 0 - wrist camera calibration

Print at 100% / ACTUAL SIZE (no 'fit to page'). Black square should be 100 mm.

Measure it and pass the measured value: --marker-mm <value>. Keep white border.

100 mm (horizontal check)

100 mm (vertical check)

Tape flat on the table near the tray; do not move it during calibration.

Avoid glare (matte paper), keep the sheet flat (no curl).
